Supplier Statement

Item: Filter unit series LF72/73/74
Topic: Fire and Smoke Compliance to EN 45545-2

To all concerned,

We hereby declare the fire and smoke compliance of our pneumatic filter range LF72/73/74, according to EN45545-2 and fulfillment of hazard levels (HL) 1, 2 and 3.

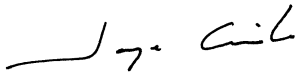

The Zamak (72 series) & Aluminum (73 & 74) separates internal combustible parts from the environment and meets the fire integrity requirements of chapter 5.3.6 of EN45545-2.

Therefore, only internal combustible components need to be considered and grouped.

The total mass of the internal combustible material is <100g, in line with chapter 4.3.1 (Grouping rule 1) of EN45545-2 no requirements apply to products with a combustible mass (non-metal) of <100g for interior products and <400g for exterior products.

Note: Pneumatic fittings and tubing compliant to EN45545-2 are to be used with this product to assure fire integrity to chapter 5.3.6 of this standard.

Yours faithfully,

Jorge Cristo
IMI Precision Engineering Queretaro
