

19th March 2018

Supplier Statement

Item: VT20, VT30, VT40 and VT50 Ball valve range
Topic: Fire and Smoke Compliance to EN 45545-2

To all concerned,

We hereby declare the fire and smoke compliance of our pneumatic ball valve range VT20, VT30, VT40 and VT50 according to EN45545-2 and fulfilment of hazard levels (HL) 1, 2 and 3.

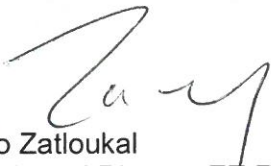

No requirements are applied to all internal components, as all non compliant combustible material is <10g and is not in touching contact with another unclassified product.

External connectors comply with EN 45545, requirements R26.

Note: Pneumatic fittings and tubing compliant to EN45545-2 are to be used with this product to assure fire integrity to chapter 5.3.6 of this standard.

Yours faithfully,

Modřice, 19.03.2018
