

OPERATIONS BUYER FRADLEY

**Precision.
Engineered.
Through our people, products
and service.**

IMI Precision Engineering is a world leader in motion and fluid control technologies. Wherever precision, speed and engineering reliability are essential; we deliver exceptional solutions which improve the productivity and efficiency of our customers' equipment.

As a business, we aim to UNDERSTAND our customers' challenges. We then CONNECT our products, people and expertise in order to DELIVER exceptional service and solutions. These IMPROVE the performance of our customers' machinery. We call this Engineering GREAT, and we deliver it to customers through a world-class portfolio of high performance products, through close partnerships and problem-solving, and through a global network of support which ensures reliable local delivery, all over the world.

Engineering GREAT is our vision – help us get there.

Job purpose

The job holder will be responsible for key operational aspects of supply chain procurement.

Have direct responsibility for the maintenance and update of all Fradley procurement static data.

Establish a culture of continuous improvement as part of a global purchasing team whose objective is to maintain IMI Precision Engineering as the market leader in motion and fluid control technologies by the introduction of supplier work streams.

Manage a defined range of commodity suppliers in order to secure the supply of parts.

Work with preferred suppliers to identify and deliver opportunities to reduce cost, lead times and improve purchase part availability.

Be part of
something
GREAT

Location
