Our policy is one of continued research and development. We therefore reserve the right to amend, without notice, the specifications given in this document.

## Technical features

- **Medium:** Neutral gases and liquids
- **Switching function:** Normally closed
- **Operation:** Directly solenoid actuated
- **Mounting position:** Optional, preferably solenoid vertical on top

### Flow direction:
- Determined

### Port size:
- G3/8

### Operating pressure:
- 0 ... 6 bar (0 ... 87 psi)

### Fluid temperature:
- −10 ... +90°C (+14 ... +194°F)

### Ambient temperature:
- −10 ... +50°C (+14 ... +122°F)

### Material:
- Body: Brass (CW617N)
- Seat seal: NBR
- Internal parts: Stainless steel, Brass

For contaminated fluids insertion of a strainer is recommended.

### Electrical details for all solenoid systems

- **Design**: DIN VDE 0580
- **Voltage range**: ±10%
- **Duty cycle**: 100% ED
- **Protection class**: EN 60529 IP65
- **Socket**: Form A acc. to DIN EN 175301-803 (included)

According to DIN VDE 0580 at a solenoid temperature of +20°C. At operating state temperature the input power of a coil decreases by up to ca. 30% due to physical reasons.

### Dimensions

- **Projection/First angle**: M5x8
- **Solenoid rotatable 360°**
- **Socket turnable 4 x 90°** (Socket included)

**Note to Pressure Equipment Directive (PED):**

The valves of this series are according to Art. 4 § 3 of the Pressure Equipment Directive (PED) 2014/68/EU. This means interpretation and production are in accordance to engineers practice well-known in the member countries. The CE-sign at the valve does not refer to the PED. Thus the declaration of conformity is not longer applicable for this directive.

**Note to Electromagnetic Compatibility Guideline (EMC):**

The valves shall be provided with an electrical circuit which ensures the limits of the harmonised standards EN 61000-6-3 and EN 61000-6-1 are observed, and hence the requirements of the Electromagnetic Compatibility Guideline 2014/30/EU satisfied.
