Address: **30, Secheon 1-gil, Dasa-eup, Dalseong-gun, Daegu, 42921, Republic of Korea.**

Date: **06-MAR-2026**

Dear CDC Pneumatics Corp,

Please accept this letter as written confirmation that NSF Wales are currently processing multiple applications for WRAS reapproval. Please see details below:

Application reference(s):

W0919418 – WRAS reapproval of 1906109 – Testing completed, submission to WRAS linked to testing on W0919419.

W0919419 – WRAS reapproval of 1912019 – Testing completed, submission to WRAS pending further information.

W1004098 – WRAS reapproval of 2009023 – Samples arrived on site, to be booked into lab, estimated completion date to follow.

W1004249 – WRAS reapproval of 2206049 - Samples arrived on site, to be booked into lab, estimated completion date to follow.

All above projects are subject to mechanical testing to ensure compliance with 'The Water Supply (Water Fittings) Regulations 1999 (England and Wales), (Scotland) Byelaws 2014, (Northern Ireland) 2009'.

W0919418 & W0919419 can be submitted for WRAS approval at the next available date if outstanding information is provided before the cut off. The submission date is 18-MAR-2026.

This letter does not confirm the test results will be satisfactory and can not be used to prejudice against the testing and approvals process carried out by NSF and WRAS.

Yours sincerely

Kristian Brunner – Project Manager | Oakdale Laboratory
