- \*1) Outlet pressure can be adjusted to pressures in excess of and less than, those specified. Do not use these units to control pressures outside of the specified ranges.
- \*2) Units with 17 bar (246 psi) outlet pressure range are available only with the T-bar adjustment; therefore substitute T at the 7th digit and S at the 9th position.
- \*3) Units with 1 litre bowl are available only with 'E' version only; therefore substitute E at the 4th digit and U or C at the 9th position.
