

# PCB Mount KT10

for PCBs in European standard format

Catalog Register  
P17 H17

Publication 7501790.06.03.85

## Description (standard units)

The PCB mount KT10 accepts a 32-pin terminal strip PCB in European standard format (160 x 100 mm) to DIN 41612 Form F.

## Features

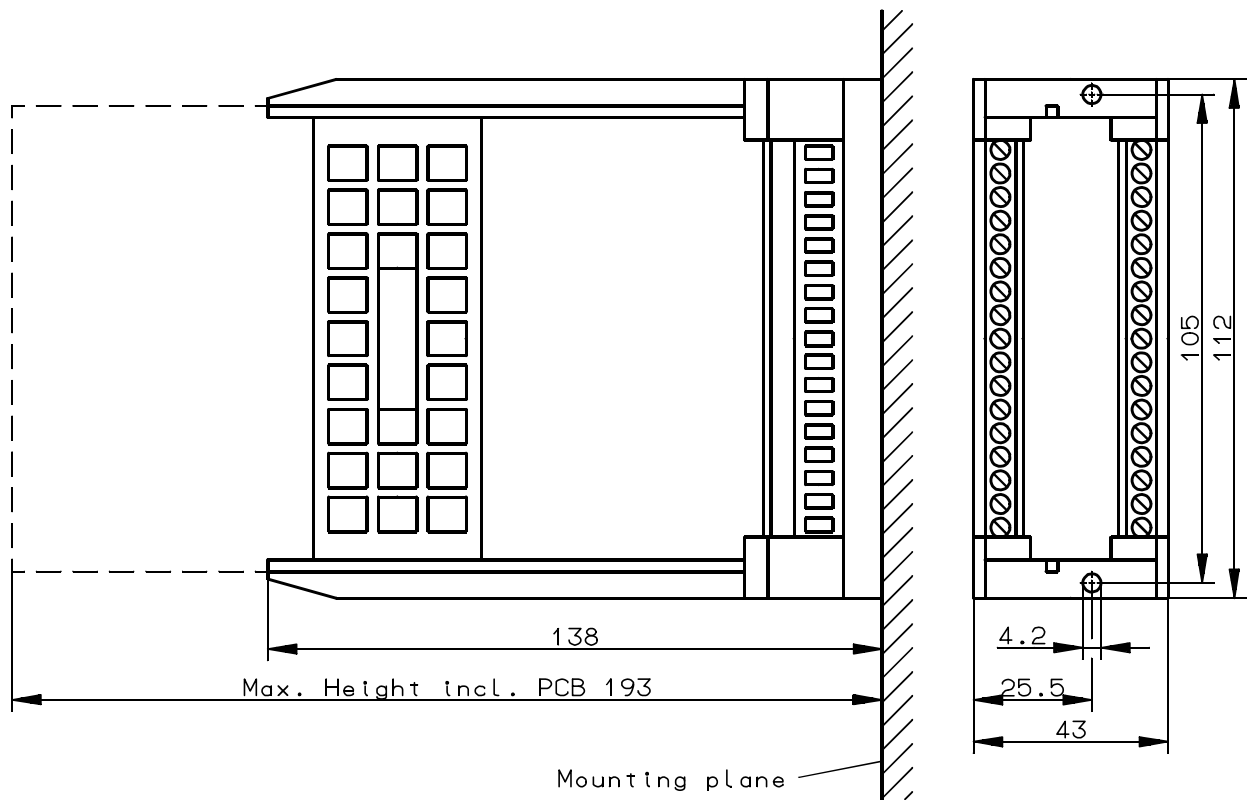

- Simple, space-saving installation
- Quick change of PCBs without disconnection of cables
- Suited for all HERION PCBs with 32-pin terminal strip to DIN 41612 Form F.

## Characteristic data

Designation	PCB mount
Plug-in connection (for PCB)	32-pin to DIN 41612 Form F
Type of connection	Terminal connection
Cross section for connection [mm <sup>2</sup> ]	2.5
Weight [kg]	0.221
Mounting dimensions (with PCB) [mm]	112 x 43 x 193 (213)
Type of mounting	Supporting rail 35 mm DIN EN 50 022 2 x M 4
Cat. No.	<b>5998539</b>

## Dimensional- and assembly drawing [mm]

Installation of a bracket for the supporting rail increases max. height by 20 mm.

### Mounting instruction:

The designation of the terminals corresponds to the terminal designation of the PCBs.

The mounting position stated in the assembly drawing must be adhered-to (vertical mounting plane) in order to maintain sufficient ventilation between PCBs.
