Technical Apprenticeship

Enabling Engineering GREAT

Precision. Engineered. **Through our people, products and service.**

IMI Precision Engineering is a world leader in motion and fluid control technologies. Wherever precision, speed and engineering reliability are essential; we deliver exceptional solutions which improve the productivity and efficiency of our customers' equipment.

As a business, we aim to UNDERSTAND our customers' challenges. We then CONNECT our products, people and expertise in order to DELIVER exceptional service and solutions. These IMPROVE the performance of our customers' machinery. We call this Engineering GREAT, and we deliver it to customers through a world-class portfolio of high performance products, through close partnerships and problem-solving, and through a global network of support which ensures reliable local delivery, all over the world.

Engineering GREAT is our vision – help us get there.

About the Role:

In your role as a Technical Apprentice you will undertake a three year training programme, attending training 2 days a week to obtain your NVQ Apprenticeship, as well as working with skilled people within Precision Engineering, carrying out a broad range of duties to gain skills in the following areas:

- Machining
- Assembly
- Design
- Development

Future prospects:

Successful completion of this programme may result in full time employment being offered with potential opportunity for further education. This is dependent upon the attitude, aptitude and commitment shown across the programme.

Location

Fradley - Lichfield

What we're looking for

We are looking for individuals who can demonstrate the ability to work well within a team whilst having the confidence to work on their own initiative.

- Ability to focus on learning new skills
- Enthusiasm, drive and commitment to a career in Engineering
- Good communication skills and able to motivate themselves in a given situation
- Obtain 3 GCSE's (Grade C or above) including Mathematics and English, a Science would be advantageous
